

Hannah Godwin

Interior Architecture and Design

About me

I consider myself to be both creative and practical with the ability to communicate well and keep within a required time frame. I have a competent set of computer skills as well as the ability to produce detailed hand drawings and enjoy the challenge to find practical solutions for any problems.

I enjoy thinking of a concept and designing an interior which creates a distinguishable atmosphere. I like seeing the progression from quick sketches to a fully rendered image and placing images into Photoshop to give it that extra feel. I also like being hands on with seeing and feeling materials.

I wish to develop upon the skills that I have already gained by having further experience in this field of work. I am eager to learn and will put 100% of my effort into doing so.

Previous work

Quadrant 2 Design

2017-present
CAD Designer. I design exhibition stands and the graphics that go on them. Showing clients a 3D representation of their stand through renders.

Clarks

2015-2017
I worked for Clarks footwear, during holidays from university, as a sales assistant.

WM Morrison

Supermarket's Plc

2012-2014
I worked as a multi-skilled checkout operative covering other customer services departments. Other daily tasks involved working in the petrol station, kiosk and self service machines

British Heart Foundation

2012
I volunteered for the British Heart Foundation where I organised stock and worked on the tills selling products to customers.

Harvester Restaurant

2011
I followed instructions given by senior staff and team leaders. I cleaned tables between service and filled food and drink orders.
